

ATLO - USER TERMS AND CONDITIONS

This Atlo - User Terms and Conditions, which includes terms under which Atlo provides its services to users (these "**Terms**"), effective upon the effective date of its publication on the website at <https://atlo.app/>, sets out the terms and conditions of your use of the Atlo platform (the "**Platform**"), an online platform owned and operated by [Liftoff Labs Inc], a company incorporated under the laws of the Republic of Panama ("**Atlo**" or "**we**") as well as access and use of any other services provided through the Platform. The provisions of these Terms will govern your use of the Platform (as defined below) and of the Services (as described below), and you should therefore take time to read these Terms carefully.

The Platform is intended for users who are at least 21 years old, or otherwise of sufficient legal age and capacity in their jurisdiction to contract. By clicking on the "I Accept" button, completing the account registration process or using our Services, you agree to be bound by these terms and all of the terms incorporated herein by reference. **IF YOU DO NOT AGREE TO THESE TERMS, YOU MAY NOT ACCESS OR USE THE PLATFORM OR THE SERVICES.**

The purpose of the Atlo Platform and Services is to create Terra's first DAO based launchpad which allows community participants to vet potential projects and provides an allocation mechanism which incentivises participation, commitment and due diligence (the **Services**). It allows any type of third party blockchain project in any area which intends to issue its native digital tokens (each, a **Project**) to kickstart, incubate, mint tokens, build custom smart contracts, and strategize listing and deployment all via a single dashboard within the Platform.

Via the tools and custom contract modules provided on the Platform, Projects will be able to directly meet community members and conduct their own token sales without intervention or involvement of any third party (including Atlo). The Platform initially provides logistics support on the Terra blockchain, which scope may eventually be expanded to cover other blockchains as well. These tools would allow Projects to lock token sale proceeds, deploy contracts for various project administration and safeguarding functions, in order to give maximum confidence to project participants regarding the usage of token sale proceeds. In order to grow the community and increase engagement between the Project and buyers, Projects will be able to set the parameters and incentives which they offer for user engagement. By listing a Project on the Platform, the third party issuers promoting the Project are inviting users to contract directly with them by way of a binding legal agreement (which Atlo is not a party to).

The Platform differentiates itself from other launchpads by allowing users to play an active role in governance and selection of Projects listing on the Platform. Users may monitor each Project's progress and statistics from a single dashboard and interact directly with Project owners. There would be a pre-determined allocation of digital tokens available for each users determined between the Platform and Projects at the outset. By being involved in these projects as community participants, they may be entitled to allocations to participate, or able to earn special incentives for their efforts, with the reward structure for each Project determined by individual Project teams listing on the Platform.

Atlo functions solely as an intermediary technology platform, and the Services solely comprise provision of (a) tools and custom contract modules for third party issuers to launch their own Projects and manage community relationships, and (b) a user interface allowing Projects and users to connect and communicate information regarding Projects, and Atlo is not a party to a user's participation in any Project. Users are wholly responsible for their decision to engage with third party issuers or any particular Project on the Platform. The relationship and dealings between a user and

the relevant Project shall be governed by the relevant legal agreement or contract entered into directly between the parties, and Atlo is not a party to the direct contractual relationship between a user and a Project; accordingly Atlo does not assume any responsibilities or liabilities whatsoever in this regard. Atlo shall in no circumstances be construed as a seller, introducer or promoter of any digital tokens or any Project.

1. GENERAL

- 1.1. By signing up to use an account through the Platform ("**Account**"), you agree to comply with and be legally bound by these Terms. If you do not agree to any of the terms set forth in these Terms, or any subsequent modification to these Terms, you may not access or use any of the Services and must cancel your Atlo Account immediately.
- 1.2. To be eligible to use the Services, you need to register for an Account. You represent and warrant that you are 21 or older and in particular, you shall:
 - (a) provide true, accurate, current, and complete in all respects information about yourself requested during the Account creation (including without limitation name, date of birth, email address, credit card details, and other details);
 - (b) maintain and promptly update from time to time as necessary your Account information where there are changes;
 - (c) maintain the security of your password and accept all risks of unauthorised access to your Account and the information you provide to us;
 - (d) immediately notify us if you discover or otherwise suspect any security breaches related to the Service, or your Account;
 - (e) not buy, sell, rent or lease access to your Account or username; and
 - (f) not share your Account password with anyone.
- 1.3. We may amend or modify these Terms by posting such amended or modified Terms on the Platform or by notifying you about the changes via email. By continuing to access or use the Services once the amended Terms are effective, you agree to be bound by its terms.
- 1.4. We reserve the right to (a) modify or discontinue any portion of the Services, and (b) suspend or terminate your access to the Services, at any time, and from time to time, without notice to you in certain, limited circumstances described herein. You agree that we shall not be liable to you or any third party for any modification or termination of the Services, or suspension or termination of your access to the Services, except to the extent otherwise expressly set forth herein.

2. KYC/AML COMPLIANCE

- 2.1. All users and third party issuers are required to comply with all "Know Your Customer" ("**KYC**") and "Anti Money Laundering" ("**AML**") laws and regulations in all applicable jurisdictions, and provide all documentation/information as requested by Atlo. This may include, without limitation verification of user identity with multi-factor authentication, layered security, obtaining proof of address (utility bill or bank statement), screening identifying information against trusted third-party source such as international databases, analysing whether there is logical inconsistency between identifying information provided.
- 2.2. Atlo reserves the right, at its sole discretion, to reject any users or third party issuers, reject any Project or withdraw the listing of any Project on the Platform in the event that it deems any such Project's AML or KYC policies to be deficient or detrimental to the interests of any parties involved in any manner whatsoever.
- 2.3. By using the Services and accessing the Platform, you represent and warrant that your use of the Services complies with all KYC and AML laws of all applicable jurisdictions.

3. LICENCE

- 3.1. We hereby grant you a limited, non-exclusive, revocable, non-sublicensable, non-transferable and non-assignable license, subject to the terms herein, to access and use the Platform solely for the purpose of connecting with Projects and/or users on the Platform. Any other use of the Platform is expressly prohibited. You agree to use the license subject to the charges and fees as detailed further in this document.
- 3.2. All other rights in the Platform are reserved by us. We reserve all rights in the Platform and you agree that these Terms does not grant you any other rights in or licenses to the Platform. You will not otherwise copy, transmit, distribute, sell, license, de-compile, reverse engineer, disassemble, modify, publish, create derivative works from, perform, display, incorporate into another website, or in any other way exploit any of the content available on the Platform or any derivative works thereof, in whole or in part for commercial or non-commercial purposes.
- 3.3. If you violate any portion of these Terms, your licence to access and use the Services may be terminated pursuant to these Terms without requirement of a notice. In addition, we reserve the right to enforce all remedies available at law and in equity for any such violation.

4. \$ATLO TOKEN

- 4.1. The Platform comprises a native interoperable utility token (**\$ATLO**) which functions as the native governance token and incentive which would be distributed to encourage users to exert efforts towards contribution and participation in the ecosystem on the Atlo platform.
- 4.2. As part of the platform's goal to become fully decentralized and controlled by the community, \$ATLO would allow holders to propose and vote on governance proposals to determine future features of the Atlo platform, for example the projects which may get

launched on the platform, or proposals for marketing/publicity/project contributions. The right to vote is restricted solely to voting on features of the Atlo platform; it does not entitle \$ATLO holders to vote on the operation and management of Atlo, its affiliates, or their assets or the disposition of such assets to token holders, or select the board of directors of these entities, or determine the development direction of these entities, nor does \$ATLO constitute any equity interest in any of these entities or any collective investment scheme; the arrangement is not intended to be any form of joint venture or partnership.

- 4.3. As a security deposit, potential third party projects will be required to deposit a minimum amount of \$ATLO tokens before the proposal goes to voting.
- 4.4. As part of the user engagement rewards program, \$ATLO will be distributed as rewards to incentivise community members to contribute to projects as well as in the governance/project selection process. For example, users which actively participate in governance, share information, help with project due diligence or development work would receive \$ATLO rewards to encourage such participation, as well as increased allocations for new launches.
- 4.5. By requiring each user to stake a meaningful amount of \$ATLO before it may access platform services, launch projects, or contribute to projects/voting, it becomes economically inefficient to attempt to attack or manipulate the system. The stake of \$ATLO also acts as a guarantee of proper conduct on the part of the user (will be slashed for malicious behaviour).
- 4.6. \$ATLO has the following features:
 - (a) it do not have any tangible or physical manifestation, and does not have any intrinsic value (nor does any person make any representation or give any commitment as to its value);
 - (b) it cannot be exchanged for cash (or its equivalent value in any other digital asset) or any payment obligation by Atlo or any of its affiliates;
 - (c) it does not represent or confer on the token holder any right of any form with respect to Atlo or any of its affiliates), or its revenues or assets, including without limitation any right to receive future dividends, revenue, shares, ownership right or stake, share or security, any voting, distribution, redemption, liquidation, proprietary right in any entity (including all forms of intellectual property or licence rights), right to receive accounts, financial statements or other financial data, the right to requisition or participate in shareholder meetings, the right to nominate a director, or other financial or legal rights or equivalent rights, or intellectual property rights or any other form of participation in or relating to the Atlo platform or Atlo;
 - (d) it is not intended to represent any rights under a contract for differences or under any other contract the purpose or pretended purpose of which is to secure a profit or avoid a loss;
 - (e) it is not intended to be a representation of money (including electronic money), security, commodity, bond, debt instrument, unit in a collective investment scheme or any other kind of financial instrument or investment;
 - (f) it is not a loan to Atlo or any of its affiliates, is not intended to represent a debt owed by Atlo or any of its affiliates, and there is no expectation of profit;

- (g) it does not provide the token holder with any ownership or other interest in Atlo or any of its affiliates; and
- (h) it does not provide any economic or legal right over or beneficial interest in the assets of Atlo or any of its affiliates, or any Project.

5. USE OF SERVICES; RELATIONSHIP

- 5.1. You acknowledge and agree that the Platform merely functions as an intermediary providing a user interface connecting third parties and related supporting Services, allowing users to obtain information regarding Projects and for Projects to launch their own IDO projects on the Platform. Atlo does not actively introduce users to Projects or *vice versa*. Further, Atlo does not act as a fiduciary or custodian in relation to any funds which you may place with a Project, and any claim relating to these funds are solely against the relevant third party issuer for the Project which bears sole responsibility for such funds.
- 5.2. Creating an Account on the Platform is free. The Platform reserves the right to charge fees in the future, including without the limitation the following:
 - (a) Atlo may charge project participants fees of 0.5% to 1% of the value of the transaction; and
 - (b) Depending on the Project's requirements, Atlo may charge third party issuers of Projects a separate fee for technical support.
- 5.3. Prior to charging any fees, the fee schedule will be published on Platform and Atlo will allow users to review such fees before accepting them. The Platform works with a variety of payment service providers, and Atlo cannot be responsible for their actions, omissions or performance. Projects and users are each separately responsible for paying any additional value added taxes, income taxes or other taxes or fees associated with their activities on the Platform.
- 5.4. Further, transactions on the Platform may require interaction with the relevant blockchain network, and such transaction will require virtual "gas" fees to be paid to third-party miners/validators on such relevant blockchain network as consideration for their services in confirming such blockchain transactions. All such fees and costs shall be borne by you.
- 5.5. The content provided on the Platform by third party issuers may not always be entirely accurate, complete or current and may also include technical inaccuracies or typographical errors.  - (c) we are required to do so in order to comply with KYC/AML laws and regulations; or
 - (d) you violate any of these Terms.
- 5.9. Atlo shall not be responsible for any content or other services provided by any third party issuer, or for any payments to be made by any Project to users. Such obligations shall be the exclusive liability of the relevant user and third party issuer under their direct contractual relationship.
- 5.10. All information provided by or on behalf of Atlo is for informational purposes only and should not be construed as legal, tax or financial advice. In particular, the Platform's proprietary curation scoring system and report are provided to users for informational purposes only, and users should refrain from taking any action in reliance on any information contained in these Terms or provided by or on behalf of Atlo. - 5.12. You agree to immediately notify Atlo if you become subject to any legal or regulatory investigation or action, or if you becomes aware of any third-party claim regarding the Platform or any Project.
- 5.13. You acknowledge and agree that Atlo assumes no obligations to help any user or third party issuer enforce any claims it might have towards any other user or third party issuer on the
